

Dry Suit Repair Form

Please see our pricing at www.diverightinscuba.com/services

Dealers email for dealer pricelist and provide company name _____

Dry Suit Info

Make - _____

Model - _____

Size - _____

Neck Size (measure around your neck)
- if seal is being replaced

Wrist Size (measure around your wrist)
- if seals are being replaced

*Your suit repair comes with a 2 year warranty on the work. This covers the labor, not product.

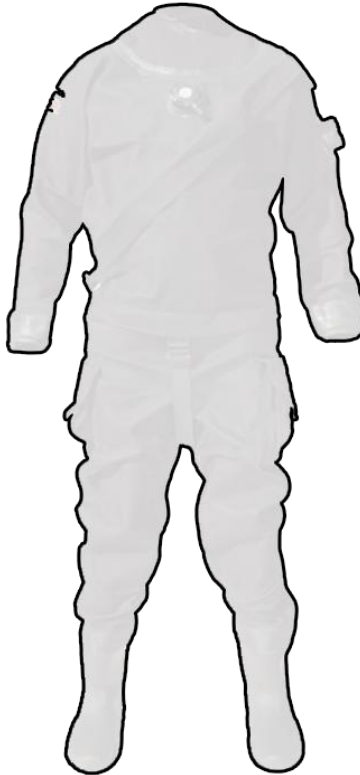

* All suits will be charged for a leak test (Major or Minor) You can see the pricing at the above website.

* Turnaround time is 7-10 days unless otherwise informed.

*We will call you when your suit is repaired for payment if you do not provide details below. This can cause shipping delays as we will not ship before payment.

I'm getting wet!

Please Circle location

Front of Line Service

\$50 - Circle if needed

Things I need done

Need more space? Use the back.....

Leak Test (must circle one)

Major (recommended) - Unknown leak, or we do work and suit is still leaking.

Free Minor - Leak test on our work only. If your suit is still leaking, you will be charged automatically for a major leak test and notified of leak and options to repair.

**Please send your suit insured by a carrier that provides tracking info (UPS, FedEx, Etc.) Dive Right In Scuba is not responsible for lost suits. Do not send drysuit bags or extras. We only want what we are working on (please send with all valves including p-valves). If you are sending in a Whites Fusion, we recommend not sending the outer skin. It needs to be removed, and there is a \$20 charge to put it back on. If the skin is with the suit, we will assume you need it attached, and you will be charged accordingly.
